

BRYAN BELIEVES
WAR WILL CEASESays Wilson Has Taken Long
Step Toward Peace.

ATTACHED TO ALL BY BLOOD

Secretary of State Declares at Dinner
in Honor of Foreign Members of In-
ternational Conference Arranging
Peace Celebration That the United
States Is Closely Bound to Nearly
All Other Nations.

New York, May 10.—W. J. Bryan,
speaking at a dinner given in honor
of the foreign members of the inter-
national conference that is arranging
the celebration of 100 years of peace
among English speaking peoples, de-
clared "that the new peace plan
offered by President Wilson to all
nations is the latest and longest step
toward peace."

"It contemplates time for investi-
gation and deliberation," he said,
"and this makes the possibility of war
remote."

Mr. Bryan's subject was "Progress
Toward Peace." He said that the
part of the United States in the cause
must, of necessity, be large, because
"more than any other nation, it had
a population which is attached by
blood to nearly all other nations."

Peace for all time between the
United States and Great Britain was
the keynote of other addresses, made
by Lord Weardale, chairman of the
English delegation, Sir Edmund
Walker of Canada, Sir George Hous-
ton Reid of Australia, and Judge
Gray of Delaware.

Mr. Bryan said in part:
"I am glad to make reference to
the act of our president that embod-
ies this thought in language."

"It is the purpose of this plan to
close the gap and to leave no ques-
tion to become the cause of war. It
is the belief of the president that
when treaties have been made be-
tween this nation and all other na-
tions severally, by which there will
be investigations before hostilities
begin, that war will become practi-
cally impossible."

Cardinal Gibbons, in a letter ex-
pressing regret that he was unable to
be present, said:

"Let Britannia and Columbia join
hands across the Atlantic and their
outstretched arms will form a sacred
arch of peace which will excite the
admiration of the nations and will
proclaim to the world the hope that
with God's help the earth shall never
more be deluged with bloodshed in
fratricidal war."

TAFT RAPS MODERN LAWS

Says Initiative and Referendum Are
Work of Political Cranks.

New Haven, Conn., May 10.—For-
mer President Taft, Kent professor
of law at Yale, in his third lecture on
"Some Questions of Modern Govern-
ment," denounced the initiative and
referendum as "very much like legis-
lation during the French revolution—
the work of political cranks and di-
rectly contrary to the spirit of the
Constitution."

He advocated a graduated income
tax, which would include all incomes
of more than \$1,000, on the ground
that "everybody ought to contribute
something in order that he may feel
more responsibility in the govern-
ment because of his payment."

LAUNCH UPSETS IN RIVER

Three Men Drowned and Eight Others
Rescued.

Fort Madison, Ia., May 10.—Fred J.
Millmeyer, James McDonald and
Louis Ivan were drowned when the
launch in which they were riding
from the city levee to a camp across
the river was overturned.

This was the second triple drown-
ing this season.
Eight others, who were in the
launch, were rescued. All were work-
ers at a logging camp.

MEDICAL CORPS SHAKEN UP

United States Army Surgeons Trans-
ferred to New Posts.

Washington, May 10.—Senior Sur-
geon George W. Stoner, for twelve
years in charge of the medical exam-
ination of arriving aliens at Ellis is-
land, New York, was ordered re-
lieved of that duty to assume charge
of the marine hospital at Stapleton,
N. Y., as part of the shakeup in line
with a policy of making periodical
changes.

DESERTED MANSION BURNED

Militant Suffragettes Blamed for An-
other Fire.

London, May 10.—A militant suffra-
gist "arson squad" succeeded in de-
stroying by fire a large untenanted
mansion near Barrow-in-Furness, Lan-
cashire.

A quantity of suffrage literature was
scattered in the lawns surrounding the
house.

Girl Foils Abductors.

Chicago, May 10.—A daring attempt
of three Italians to kidnap Viola Shi-
fano, a twenty-year-old Italian girl, in
a taxicab, was frustrated by the de-
perate struggle of the girl to escape.
One of the men was arrested.

COMMITTEE HOLDS MEETING

Retiring Chairman Lloyd Explains
Views of Chief Executive—Main
Idea Is to Accomplish Effective Work
and That Senators Should Be on the
Committee Inasmuch as Many Will
Be Chosen by Popular Vote.

Washington, May 10.—The Demo-
cratic congressional committee met to
reorganize for the next national cam-
paign. The keynote of the meeting
was sounded in a statement read by
Representative Lloyd of Missouri, the
retiring chairman of the committee,
explaining President Wilson's position
regarding the work of the committee.

This statement of the administra-
tion's views, to which President Wil-
son gave his approval, made it clear
that the president had no preference
of candidates for the chairmanship of
the committee and set forth that the
main idea was to accomplish effective
work by united action in the coming
campaign and that senators should
be among the members of the congres-
sional committee, inasmuch as various
states have provided for popular vote
of senators.

Mr. Lloyd presided. He had already
announced that he was not a candi-
date for re-election.

In his statement Representative
Lloyd said:

"The president disclaims any pur-
pose to defeat the ambition of any
persons for any position with the com-
mittee and states that any of the lead-
ers of the house have become partici-
pants in connection with the affairs of
the committee for the preferment of
any one man is likewise without founda-
tion."

MAKE THEIR FIRST REPORT

Physicians Skeptical of Friedmann's
Tuberculosis Remedy.

Washington, May 10.—The public
health service observations, so far,
into the conditions of patients inocu-
lated by Dr. F. F. Friedmann, with his
tuberculosis vaccine, do not "justi-
fy that confidence in the remedy
which has been inspired by wide-
spread publicity," in the opinion of
surgeons who have conducted the
government's investigation.

This first authentic and official
conclusion from the tests was an-
nounced here before the National As-
sociation for the Study and Preven-
tion of Tuberculosis by Dr. John F.
Anderson, director of the govern-
ment's hygienic laboratory, and Dr.
A. M. Stimson, another public health
surgeon, who were detailed to ob-
serve the progress of the Friedmann
patients at Mount Sinai hospital in
New York.

SUBMITS FORMAL PROTEST

Ambassador Chinda Calls on Secretary
Bryan.

Washington, May 10.—Ambassador
Chinda, acting for the Japanese gov-
ernment, made formal protest against
California's anti-alien land owning
law. He called on Secretary Bryan,
handed him a batch of papers, talked
over matters briefly and departed.
Secretary Bryan laid the whole mat-
ter before the cabinet and had an-
other short chat with the ambassador,
following the meeting of the presi-
dent's advisors.

Not a word was forthcoming either
from the White House or the state de-
partment as to the exact form which
Japan's protest assumed, nor would
any official state what reply the
United States intended to make.

GAMBLING BILL HANGS FIRE

French Deputies Extend Time for
Debate on Measure.

Paris, May 10.—After an animated
debate the chamber of deputies, by a
vote of 275 to 264, adopted a resolu-
tion in favor of further considera-
tion being given to an amendment of
Deputy Jacques Pious to the gam-
bling bill.

The amendment seeks to revoke all
gambling licenses granted under the
law of 1907. Its acceptance would
involve the closing of many clubs
and summer resort casinos.

VERDICT FOR RAWN'S WIDOW

Is Granted \$20,300 Against Risk Com-
panies.

St. Louis, May 10.—A verdict for
\$20,300 was returned in favor of Mrs.
Ira G. Rawn, widow of a former vice
president of the Illinois Central rail-
way, and later president of the Mo-
nroe railway, against an insurance
company she is suing to collect pol-
icies on her late husband.

Rawn died at his home near Chi-
cago, the widow contending he was
shot by burglars, the insurance com-
pany that he committed suicide.

Offers Financial Aid to
Study and Prevent Cancer.

TO WAGE WAR ON CANCER

Several Wealthy Women Offer to
Endow Society.

Washington, May 10.—Plans for
formation of a society for study and
prevention of cancer were announced
here by Frederick L. Hoffman, a di-
rector of the National Association for
the Study and Prevention of Tubercu-
losis. Much of the effort will be of
an educational nature.

A number of wealthy women,
among them Mrs. Cornelius Vander-
bilt, Mrs. Russell Sage and Mrs. Spey-
er, have offered financial aid, he said,
to start the movement.

Mr. Hoffman said that cures, heat
on the lips from the stem of a
clay pipe, growths caused by tar with
those in the pitch industry, eating of
too hot food and of brook trout, are
among the known and probable causes
of the disease.

ASSERTS PROMOTERS
ARE INSINCEREWisconsin Governor Comments
on Republican Banquet.

Madison, Wis., May 10.—"If ever
political insincerity and hypocrisy were
at a premium this is the time, Wis-
consin the place and the chief traf-
fickers in these spurious wares are
the small coterie of men who, ar-
rogating to themselves the right to act
for the Republican party, have ar-
ranged a 'Republican banquet' to be
held May 14."

"One moment these self-appointed
leaders prate unctuously about get-
ting together and a harmony ban-
quet," he continued, "but the very
next day they joyfully proclaim that
they have succeeded in driving the
head of the Republican party in Wis-
consin out of its ranks and into an-
other political organization. In one
breath they belabor him for declining
to attend their gathering and de-
clare that they never expected him to
accept their invitation."

"The tocsin is sounded that McGov-
ern has left the Republican party." Well,
he hasn't, nor has he accepted an
invitation to attend the Progressive
banquet in Milwaukee on June 6.
He stands now precisely where he
has always stood. His self respect
would not permit him to buy a ticket
to a banquet ostensibly Republican,
but in the arrangement of which he
was utterly and offensively ignored."

The governor declared that not har-
mony, but factionalism, is the prime
motive back of the meeting.

CHINESE SHOW GRATITUDE

Old Glory Waved with Dragon Em-
blem During Celebration.

Washington, May 10.—The grati-
tude of the people of China over the
recognition of their republic by the
United States, was described in a
message received at the state depart-
ment from the American legation in
Peking.

Deputations from commercial and
other organizations, students and
teachers held a popular celebration
and during a parade waved the Stars
and Stripes with the Chinese flag.

WILSONS ENTERTAIN AT TEA

Society and Official Folk at White
House Lawn Party.

Washington, May 10.—Washington
society, official folk and their friends
were entertained by President and
Mrs. Wilson at tea on the lawn front-
ing south of the White House.

President and Mrs. Wilson received
the guests, while their daughters,
members of the cabinet and their fam-
ilies mingled with the visitors. Vice
President Marshall, Chief Justice
White and members of the United
States supreme court, diplomats and
many members of congress were pres-
ent.

Those people who think that the new
members are going to take back seats
and just wait for roll calls and vote
are much mistaken. It has already
become evident that new members are
going right along as if they had served
long enough to entitle them to be heard
under the old traditions.

PARTIES AT WAR
OVER PATRONAGEEndless Contentions as to Who
Shall Get Offices.

REPUBLICANS NOW IN FORCE

They Have Nearly All Posts, Civil
Service as Well as Consular, and
Democrats Are Making Strenuous
Efforts to Create Vacancies For Their
Constituents—Charge Discrimination.

By ARTHUR W. DUNN.

Washington, May 10.—[Special.]—
Distribution of the federal offices will
always be a bone of contention be-
tween the parties. Why? The dividing
up of a few places in the house and
the senate causes a lot of friction and
fine manipulation before it can be ac-
complished with any satisfaction. Just
now the pressure for places is so great
that the Democrats are making every
possible effort to create vacancies in
the civil service which may be filled
by their partisans, and they find the
Republicans blocking their way at ev-
ery step.

Not only have the consular places
been practically all taken and in a fair
way to be held by the Republicans,
but it is found that most of the civil
service places are held by men of the
same party. Naturally this has created
a great deal of surprise among Demo-
crats, and they are charging unjust
methods and discrimination.

How It Happened.

Civil service was established under
the Arthur administration. For years
previous to that time the Republicans
had been in power, and the offices were
filled with persons of that party.
Cleveland rather rigidly enforced the
civil service rules when president.

Most of the Cleveland Democrats
turned Republican in 1896, and many
held their places. Then there were six-
teen years of Republican control, and
naturally most of the appointees, both
in and out of the civil service, were
Republicans. Beyond question there
is a method of "working" the civil
service appointments so as to get ap-
pointees where the heads of the de-
partments want them. And the Demo-
crats came into power and find the
offices filled by Republicans and for
the most part nailed down under the
civil service system.

Tariff Commissions.

"In my judgment," said Speaker
Clark, who had been drawn into the
debate, "there never was a Republican
leader in the house in favor of a tariff
commission."

And he is about right. Long before
the Payne bill was passed efforts were
made to secure a tariff commission,
but the Republicans of the ways and
means committee of the senate pre-
vented any action of that kind on the
ground that they were competent to
deal with the tariff. When Presi-
dent Taft insisted on a tariff commis-
sion he got the so called tariff board.
The speaker might have come further
and said that tariff commissions are
never wanted by the party in power.

Needed Either.

One day after a prolonged wrangle
in the house over the tariff, in which
the past had been raked up and pawed
over several times, the paragraph re-
lating to either was reached. "We
ought to have either free and cheap,"
remarked Congressman Manahan, a
new man from Minnesota, "so as to
peacefully and painlessly put to sleep
the men who persist in occupying the
time of the house fighting old and an-
cient battles over again."

Underwood's Opinion.

Automobiles and motorcycles were
being discussed in the house. Mondell
of Wyoming had referred to the mo-
torcycles as "little choo-choo things," and
Sims of Tennessee remarked that he
did not consider them a matter of lux-
ury, but rather for utilitarian purposes.
"One of my boys owns two of them,"
replied Leader Underwood, "and I
think they are a matter of nuisance
more than anything else."

Elephants and the Tariff.
Congressman Kent of California was
making a speech, favoring the Under-
wood bill generally and against high
protection absolutely, in the course of
which he seemed to think that there
was an opportunity for Americans to
compete with some of the "cheap for-
eign labor" we hear so much about
whenever the tariff is debated. Kent
said:

"My little daughter is collecting ele-
phants. Ains, what fiends she and I
are to encourage Japanese and Chi-
nese to carve them out of ivory and task
Dutchmen to mold them in pottery and
Hindus to cast them in bronze! These
elephants are, of course, utterly and
entirely useless, but we could pay
more for them if we took some of our
people from raising corn and wheat
and hogs and put them at the task of
making elephants."

The remark created considerable
amusement in the house, but whether
it was understood has not been made
clear.

New Members Heard.

Those people who think that the new
members are going to take back seats
and just wait for roll calls and vote
are much mistaken. It has already
become evident that new members are
going right along as if they had served
long enough to entitle them to be heard
under the old traditions.

Curious.
It is said that in Smith's "Wealth of
Nations" the word "nation" appears
only on the title page.

HARRIMAN TO GO ON TICKET

Mistake in Count Found in Los An-
geles Election Returns.

Los Angeles, May 10.—A mistake in
vote counting, just discovered, may
change the majority election next
month.

At the primaries Tuesday, John
Shenk, Progressive candidate, and H.
H. Rose, Independent, obtained places
on the ticket, while Job Harriman, So-
cialist, was eliminated.

The recount uncovered an instance
where Rose had been given 932 votes
which should have been credited to
Harriman.

As Rose's vote by precincts was 21,
137 and Harriman's 20,353 the increase
for Harriman will give the Socialist a
place on the ticket.

Vancouver, B. C., May 10.—Hemmed
in by flames which started from some
unknown cause six members of the
crew of the steamer Ophir, which
sailed from Vancouver and tied up
near Lander, in the Frazer river, were
burned to death in a fire which de-
stroyed the vessel.

The Ophir was a wooden steamer of
200 tons employed in carrying freight
to points on the Frazer river.

NEWSPAPER MEN IN JAIL

Five Connected With West Virginia
Publication Arrested.

Huntington, W. Va., May 10.—W.
H. Thompson, editor of the Socialist
and Labor Star; Elmer A. Dumble, a
reporter, and R. M. Kephart, George
Gillispie and F. M. Strum, connected
with the paper, which was confiscated
by the military, acting under orders
of Governor Hatfield, were taken to
Charleston.

An attack directed against Gov-
ernor Hatfield in connection with the
coal strike troubles of Kanawha
county, which is under martial law,
recently printed in the Socialist pub-
lication, caused the raiding of the
plant and the arrests.

New York Police Officials Convicted
of Conspiracy.

New York, May 10.—Dennis Swee-
ney, John J. Murtha, James E. Hus-
sey and James F. Thompson, former
police inspectors, convicted of con-
spiring to obstruct justice in order to
check graft revelations involving them,
were sentenced to serve one
year in the penitentiary and to pay a
fine of \$500 each. This is the maxi-
mum sentence.

Up to the moment that sentence
was pronounced the belief prevailed
that one of the four would "squeal"
to the district attorney on "the man
higher up." None did so, but it is not
yet too late for one of the inspectors
to save himself by an "eleventh
hour" statement.

Naval Lieutenant Found Dead.

Annapolis, Md., May 10.—Lieuten-

navy, was found dead in his room at
a boarding house here with a bullet
wound in his head. A revolver was
lying on the floor. Lieutenant Hill,
who was from Iowa, was taking a
post graduate course at the naval
school of engineering.

Missouri Attorney General to Tell

Jefferson City, Mo., May 10.—If
Thomas Bates of Chicago, attorney
for the fire insurance companies, does
not advise the companies to return to
Missouri, Attorney General Barker
said that he himself would give out a
statement as to the agreement made
with Mr. Bates.

Mr. Barker said that while Mr. Bates
did not sign the agreement he orally
agreed to it and said he gladly would
advise the companies to resume busi-
ness in Missouri.

Washington, May 10.—Senator

gation of conditions accompanying
the strike of the West Virginia coal
miners was debated in the senate,
but was not acted upon. A vote prob-
ably will be reached Tuesday.

Children and Promises.

One of the incomprehensible things
to a child is the fashion some grown-
up people have of promising and for-
getting. There is no surer way to lose
a child's confidence and love. Chil-
dren do not understand excuses or the
pressure of circumstances. They only
know, "She said she would, and she
didn't." One child who had used the
word "promise" was asked to tell its
meaning. He replied, "To promise is
to keep it in your mind, keep it in
your mind, keep it in your mind till
you do it."—Liverpool Post.

Secretary of State Declares at Dinner
in Honor of Foreign Members of In-
ternational Conference Arranging
Peace Celebration That the United
States Is Closely Bound to Nearly
All Other Nations.

New York, May 10.—W. J. Bryan, speaking at a dinner given in honor of the foreign members of the international conference that is arranging the celebration of 100 years of peace among English speaking peoples, declared "that the new peace plan offered by President Wilson to all nations is the latest and longest step toward peace."

"It contemplates time for investigation and deliberation," he said, "and this makes the possibility of war remote."

Mr. Bryan's subject was "Progress Toward Peace." He said that the part of the United States in the cause must, of necessity, be large, because "more than any other nation, it had a population which is attached by blood to nearly all other nations."

Peace for all time between the United States and Great Britain was the keynote of other addresses, made by Lord Weardale, chairman of the English delegation, Sir Edmund Walker of Canada, Sir George Houston Reid of Australia, and Judge Gray of Delaware.

Mr. Bryan said in part:

"I am glad to make reference to the act of our president that embodies this thought in language."

"It is the purpose of this plan to close the gap and to leave no question to become the cause of war. It is the belief of the president that when treaties have been made between this nation and all other nations severally, by which there will be investigations before hostilities begin, that war will become practically impossible."

Cardinal Gibbons, in a letter expressing regret that he was unable to be present, said:

"Let Britannia and Columbia join hands across the Atlantic and their outstretched arms will form a sacred arc of peace which will excite the admiration of the nations and will proclaim to the world the hope that with God's help the earth shall never more be deluged with bloodshed in fratricidal war."

Ambassador Chinda Calls on Secretary
Bryan.

Washington, May 10.—Ambassador Chinda, acting for the Japanese government, made formal protest against California's anti-alien land owning law. He called on Secretary Bryan, handed him a batch of papers, talked over matters briefly and departed. Secretary Bryan laid the whole matter before the cabinet and had another short chat with the ambassador, following the meeting of the president's advisors.

Not a word was forthcoming either from the White House or the state department as to the exact form which Japan's protest assumed, nor would any official state what reply the United States intended to make.

GAMBLING BILL HANGS FIRE

French Deputies Extend Time for
Debate on Measure.

Paris, May 10.—After an animated debate the chamber of deputies, by a vote of 275 to 264, adopted a resolution in favor of further consideration being given to an amendment of Deputy Jacques Pious to the gambling bill.

The amendment seeks to revoke all gambling licenses granted under the law of 1907. Its acceptance would involve the closing of many clubs and summer resort casinos.

VERDICT FOR RAWN'S WIDOW

Is Granted \$20,300 Against Risk Com-
panies.

St. Louis, May 10.—A verdict for \$20,300 was returned in favor of Mrs. Ira G. Rawn, widow of a former vice president of the Illinois Central railway, and later president of the Mo-nor railway, against an insurance company she is suing to collect policies on her late husband.

Rawn died at his home near Chicago. The widow contending he was shot by burglars, the insurance companies that he committed suicide.

TO WAGE WAR ON CANCER

Several Wealthy Women Offer to
Endow Society.

Washington, May 10.—Plans for formation of a society for study and prevention of cancer were announced here by Frederick L. Hoffman, a director of the National Association for the Study and Prevention of Tuberculosis. Much of the effort will be of an educational nature.

A number of wealthy women, among them Mrs. Cornelius Vanderbilt, Mrs. Russell Sage and Mrs. Speyer, have offered financial aid, he said, to start the movement.

Mr. Hoffman said that corsets, heat on the hips from the stem of a clay pipe, growths caused by tar with those in the pitch industry, eating of too hot food and of brook trout, are among the known and probable causes of the disease.

ASSERTS PROMOTERS
ARE INSINCEREWisconsin Governor Comments
on Republican Banquet.

Madison, Wis., May 10.—"If ever political insincerity and hypocrisy were at a premium this is the time, Wisconsin the place and the chief traffickers in these spurious wares are the small coterie of men who, arrogating to themselves the right to act for the Republican party, have arranged a 'Republican banquet' to be held May 14."

"One moment these self-appointed leaders prate unctuously about getting together and a harmony banquet," he continued, "but the very next day they joyfully proclaim that they have succeeded in driving the head of the Republican party in Wisconsin out of its ranks and into an other political organization. In one breath they belabor him for declining to attend their gathering and declare that they never expected him to accept their invitation."

"The tocsin is sounded that 'McGovern has left the Republican party.' Well, he hasn't, nor has he accepted an invitation to attend the Progressive banquet in Milwaukee on June 6. He stands now precisely where he has always stood. His self respect would not permit him to buy a ticket to a banquet ostensibly Republican, but in the arrangement of which he was utterly and offensively ignored."

The governor declared that not harmony, but factionalism, is the prime motive back of the meeting.

CHINESE SHOW GRATITUDE

Old Glory Waved with Dragon Em-
blem During Celebration.

Washington, May 10.—The gratification of the people of China over the recognition of their republic by the United States, was described in a message received at the state department from the American legation in Peking.

Deputations from commercial and other organizations, students and teachers held a popular celebration and during a parade waved the Stars and Stripes with the Chinese flag.

WILSONS ENTERTAIN AT TEA

Society and Official Folk at White
House Lawn Party.

Washington, May 10.—Washington society, official folk and their friends were entertained by President and Mrs. Wilson at tea on the lawn fronting south of the White House.

President and Mrs. Wilson received the guests, while their daughters, members of the cabinet and their families mingled with the visitors. Vice President Marshall, Chief Justice White and members of the United States supreme court, diplomats and many members of congress were present.

PARTIES AT WAR
OVER PATRONAGEEndless Contention as to Who
Shall Get Offices.

REPUBLICANS NOW IN FORCE

They Have Nearly All Posts, Civil
Service as Well as Consular, and
Democrats Are Making Strenuous
Efforts to Create Vacancies For Their
Constituents—Charge Discrimination.

By ARTHUR W. DUNN.

Washington, May 10.—[Special.]—Distribution of the federal offices will always be a bone of contention between the parties. Why? The dividing up of a few places in the house and the senate causes a lot of friction and fine manipulation before it can be accomplished with any satisfaction. Just now the pressure for places is so great that the Democrats are making every possible effort to create vacancies in the civil service which may be filled by their partisans, and they find the Republicans blocking their way at every step.

Not only have the consular places been practically all taken and in a fair way to be held by the Republicans, but it is found that most of the civil service places are held by men of the same party. Naturally this has created a great deal of surprise among Democrats, and they are charging unjust methods and discrimination.

How It Happened.

Civil service was established under the Arthur administration. For years previous to that time the Republicans had been in power, and the offices were filled with persons of that party. Cleveland rather rigidly enforced the civil service rules when president.

Most of the Cleveland Democrats turned Republican in 1896, and many held their places. Then there were sixteen years of Republican control, and naturally most of the appointees, both in and out of the civil service, were Republicans. Beyond question there is a method of "working" the civil service appointments so as to get appointees where the heads of the departments want them. And the Democrats came into power and find the offices filled by Republicans and for the most part nailed down under the civil service system.

Tariff Commissions.

"In my judgment," said Speaker Clark, who had been drawn into the debate, "there never was a Republican leader in the house in favor of a tariff commission."

And he is about right. Long before the Payne bill was passed efforts were made to secure a tariff commission, but the Republicans of the ways and means committee in the house and of the finance committee of the senate prevented any action of that kind on the ground that they were competent to deal with the tariff. When President Taft insisted on a tariff commission he got the so-called tariff board. The speaker might have gone further and said that tariff commissions are never wanted by the party in power.

Needed Ether.

One day after a prolonged wrangle in the house over the tariff, in which the past had been raked up and pawed over several times, the paragraph relating to ether was reached. "We ought to have ether free and cheap," remarked Congressman Manahan, a new man from Minnesota, "so as to peacefully and painlessly put to sleep the men who persist in occupying the time of the house fighting old and ancient battles over again."

Underwood's Opinion.

Automobiles and motorcycles were being discussed in the house. Mondell of Wyoming had referred to the motorcycles as "little choo-choo things," and Sims of Tennessee remarked that he did not consider them a matter of luxury, but rather for utilitarian purposes. "One of my boys owns two of them," replied Leader Underwood, "and I think they are a matter of nuisance more than anything else."

Elephants and the Tariff.

Congressman Kent of California was making a speech, favoring the Underwood bill generally and against high protection absolutely, in the course of which he seemed to think that there was an opportunity for Americans to compete with some of the "cheap foreign labor" we hear so much about whenever the tariff is debated. Kent said:

"My little daughter is collecting elephants. Alas, what funds she and I are to encourage Japanese and Chinese to carve them of ivory and teak. Dutchmen to mold them in pottery and Hindus to cast them in bronze! These elephants are, of course, utterly and entirely useless, but we could pay more for them if we took some of our people from raising corn and wheat and hogs and put them at the task of making elephants."

The remark created considerable amusement in the house, but whether it was understood has not been made clear.

New Members Heard.

Those people who think that the new members are going to take back seats and just wait for roll calls and vote are much mistaken. It has already become evident that new members are going right along as if they had served long enough to entitle them to be heard under the old traditions.

Curious.

It is said that in Smith's "Wealth of Nations" the word "nation" appears only on the title page.

HARRIMAN TO GO ON TICKET

Mistake in Count Found in Los An-
geles Election Returns.

Los Angeles, May 10.—A mistake in vote counting, just discovered, may change the mayoralty election next month.

At the primaries Tuesday, John Shenk, Progressive candidate, and H. H. Rose, Independent, obtained places on the ticket, while Job Harriman, Socialist, was eliminated.

The recount uncovered an instance where Rose had been given 932 votes which should have been credited to Harriman.

As Rose's vote by precincts was 21,137 and Harriman's 20,353 the increase for Harriman will give the Socialist a place on the ticket.

on Frazer River.

Vancouver, B. C., May 10.—Hemmed in by flames which started from some unknown cause six members of the crew of the steamer Ophir, which sailed from Vancouver and tied up near Lander, in the Frazer river, were burned to death in a fire which destroyed the vessel.

The Ophir was a wooden steamer of 200 tons employed in carrying freight to points on the Frazer river.

Five Connected With West Virginia
Publication Arrested.

Huntington, W. Va., May 10.—W. H. Thompson, editor of the Socialist and Labor Star; Elmer A. Dumble, a reporter, and R. M. Kephart, George Gillespie and F. M. Strum, connected with the paper, which was confiscated by the military, acting under orders of Governor Hatfield, were taken to Charleston.

An attack directed against Governor Hatfield in connection with the coal strike troubles of Kanawha county, which is under martial law, recently printed in the Socialist publication, caused the raiding of the plant and the arrests.

WILL PLAY IN JAPAN.

San Francisco, May 10.—Twelve members of the Stanford university baseball squad sailed for Japan on the liner Nippon Maru to compete against the team of Tokio university. The Stanford team, intercollegiate champions of the Pacific coast, will be the guests of the Japanese institution on the tour.

New York Police Officials Convicted
of Conspiracy.

New York, May 10.—Dennis Sweetney, John J. Murtha, James E. Hussey and James F. Thompson, former police inspectors, convicted of conspiring to obstruct justice in order to check graft revelations involving them, were sentenced to serve one year in the penitentiary and to pay a fine of \$500 each. This is the maximum sentence.

Up to the moment that sentence was pronounced the belief prevailed that one of the four would "squeal" to the district attorney on "the man higher up." None did so, but it is not too late for one of the inspectors to save himself by an "eleventh hour" statement.

Naval Lieutenant Found Dead.

Annapolis, Md., May 10.—Lieutenant B. Richard Hill, United States navy, was found dead in his room at a boarding house here with a bullet wound in his head. A revolver was lying on the floor. Lieutenant Hill, who was from Iowa, was taking a post graduate course at the naval school of engineering.

Jefferson City, Mo., May 10.—If Thomas Bates of Chicago, attorney for the fire insurance companies, does not advise the companies to return to Missouri, Attorney General Barker said that he himself would give out a statement as to the agreement made with Mr. Bates.

Mr. Barker said that while Mr. Bates did not sign the agreement he orally agreed to it and said he gladly would advise the companies to resume business in Missouri.

Labor Probe Not Ordered.

Washington, May 10.—Senator Kern's resolution for a federal investigation of conditions accompanying the strike of the West Virginia coal miners was debated in the senate, but was not acted upon. A vote probably will be reached Tuesday.

Children and Promises.

One of the incomprehensible things to a child is the fashion some grown-up people have of promising and forgetting. There is no surer way to lose a child's confidence and love. Children do not understand excuses or the pressure of circumstances. They only know, "She said she would, and she didn't." One child who had used the word "promise" was asked to tell its meaning. He replied, "To promise is to keep it in your mind, keep it in your mind, keep it in your mind till you do it."—Liverpool Post.

Young Woman Makes Affidavit
in O'Hara Case.

EAGER TO TELL HER STORY

Former Church Singer at Springfield

Figures in Accusations of Immoral-
ity Against Lieutenant Governor of
Illinois—O'Hara Positively Declines
to Make Any Statement.

Chicago, May 10.—Miss Maude Rob-

inson of Springfield, Ill., admitted here that she signed the affidavit in connection with the charges against Lieutenant Governor Barrett O'Hara of Illinois presented before the senate investigating committee by Chief Deputy Sheriff Richard Sullivan of Sangamon county.

Miss Robinson denied positively that anything alleged in the paper would justify her arrest, or that she committed perjury in signing it. The contents of the affidavit have not been made public.

"I have done nothing that I could be arrested for," said Miss Robinson. "I have not been served with a summons to appear before the senate committee, but I will do so and tell what I know. Meanwhile, I will not give out any statements."

Miss Robinson said that she had acted on her own initiative in the matter and without the advice of counsel.

Miss Robinson is twenty-six years old. She was born in Charleston, Ill., where she was a church singer until a few years ago. Two years ago she was married to Jack Shriver of Charleston. She obtained a divorce from Shriver, with permission to resume her maiden name on April 17, 1913, at Springfield, Ill., where she lived with her mother.

But the call was too strong with somebody last night who defied the majesty of the law and smashed into the back door of D. M. Clark's hardware store and stole \$20 worth of fishing tackle. A man doing such a trick is just fishing for trouble and will land in jail if caught.

STIRRING SPEECH AT DEERWOOD

Good Roads Club Formed—The Deerwood Gun Club—Domestic Science at Deerwood

Deerwood, Minn., May 9.—On Monday good roads was the main topic of conversation in Deerwood. Charles A. Forbes, engineer of the state highway commission, delivered a lecture at Hilyar's hall in the afternoon and the schools were closed in order to permit the children to hear the speaker. In the evening many Cuyuna and Bay Lake people were present and enjoyed his address as well as the many stereopticon views shown. Charles G. Osterlund, secretary of the Commercial club, presided. A good roads club was organized and the membership fee was placed at \$1. Many signed the charter organization. District Engineer L. E. Garrison attended the meeting. Next day Mr. Forbes was given an auto ride over roads in the vicinity and viewed state road No. 5 leading from Deerwood to Esdon which is to be connected with the Moose Lake road. District Engineer Garrison spoke of the good work done at Barrows and vicinity where crushed rock had been distributed. Road Foreman Sinclair is now at work there.

County Commissioner John A. Oberg has had some experience in road making. He maintains that a grader and four teams working under one teamster will accomplish more than the same outfit engineered by four different teamsters. In Klondike no headway was made in the matter of road building until a grader was secured. It takes an experienced man to operate one of the machines.

Round lake boasts of pelicans, the first seen there in the last 15 years. District Engineer Garrison will ship to Deerwood two road graders. These are the split log affair which will do much to improve muddy roads if handled in season.

Before the Railroad and Warehouse Commission of the State of Minnesota

In the Matter of the Application of the Minnesota & International Railway Company to abandon a portion of its line. The Minnesota & International Railway Company makes application to abandon the main line of railway, described as follows:

Beginning at a point, known as station 142-57, which said point is situated in the center of the main track of the aforesaid railway company, and in Lot 4 of Section 25, Township 134 North, Range 28 West of the Fifth Principal Meridian; thence extending from said point of beginning in a southerly direction over and across the Mississippi River, for a distance of about 4600 feet, to the south line of Section 18, Township 45 North, Range 30 West; said point of termination may be further described as being the point of intersection of the said south line of the said section 18 with the center line of the aforesaid railway company's main track.

The applicant proposes to substitute for the line to be abandoned, a new main line of railway, to be constructed of easier gradients and lighter curvature, for its entrance into the city of Brainerd, Minnesota, at a point situated in the Southwest quarter (SW 1/4) of the Northeast quarter (NE 1/4) of Section 23, Township 134 North, Range 28 West, thence extending from said point of beginning in a southeasterly, southerly and easterly direction, for a distance of about 5.82 miles, and intersecting with the main track of the Northern Pacific Railway at a point situated in said Northern Pacific main track, between Third and Fourth Streets in West Brainerd.

It is Therefore Ordered, that a hearing on said petition be heard at the offices of the Minnesota & International Railway Company, in the City of Brainerd, Minnesota, on the 14th day of May, 1913, at two o'clock in the afternoon, where objections, if any, will be heard to the granting of said application; that notice of such hearing be given by a publication of this order in the Brainerd Daily Dispatch, a newspaper printed, published and circulated in the City of Brainerd, Minnesota, on the 10th, 12th and 13th day of May, 1913.

(Seal of the) BY THE COMMISSION, Railroad & Warehouse Commission. A. C. CLAUSEN, Secretary.

Dated at St. Paul, Minn., May 6th A. D. 1913.

STIRRING SPEECH AT DEERWOOD

Good Roads Club Formed—The
Deerwood Gun Club—Domestic
Science at Deerwood

Deerwood, Minn., May 9.—On Mon-
day good roads was the main topic
of conversation in Deerwood. Charles
A. Forbes, engineer of the state
highway commission, delivered a
lecture at Hilyar's hall in the after-
noon and the schools were closed in
order to permit the children to hear
the speaker. In the evening many
Cuyuna and Bay Lake people were
present and enjoyed his address as
well as the many stereotyped views
shown. Charles G. Osterlund, sec-
retary of the Commercial club, pre-
sided. A good roads club was or-
ganized and the membership fee was
placed at \$1. Many signed the
charter organization. District En-
gineer L. E. Garrison attended the
meeting. Next day Mr. Forbes was
given an auto ride over roads in the
vicinity and viewed state road No.
5 leading from Deerwood to Esdon
which is to be connected with the
Moose Lake road. District Engineer
Garrison spoke of the good work
done at Barrows and vicinity where
crushed rock had been distributed.
Road Foreman Sinclair is now at
work there.

County Commissioner John A.
Oberg has had some experience in
road making. He maintains that a
grader and four teams working un-
der one teamster will accomplish more
than the same outfit engineered by
four different teamsters. In Klondike
no headway was made in the
matter of road building until a grader
was secured. It takes an experi-
enced man to operate one of the ma-
chines.

Before the Railroad and Warehouse Commission of the State of Minnesota

In the Matter of the Application of the
Minnesota & International Railway Com-
pany to abandon a part of its line.

The Minnesota & International Rail-
way Company has filed its application to
abandon the portion of its main line of
railway, described as follows:

Beginning at a point, known as sta-
tion 142-57, which said point is sit-
uate in the center of the main track of
the aforesaid railway company, and in
the Northwest quarter (NW 1/4) of
Section 26, Township 134 North,
Range 28 West of the Fifth Principal
Meridian; thence extending from said
point of beginning, in a southerly di-
rection over and across the Mississippi
River, for a distance of about 4500 feet,
to the south line of Section 18, Township
45 North, Range 30 West; said point of
termination may be further described
as being the point of intersection of the
said south line of the said section 18
with the center line of the aforesaid
railway company's main track.

The applicant proposes to substitute
for the line to be abandoned, a new main
line to be constructed and operated
easier gradients and lighter curvature,
for its entrance into the city of Brainerd.
The new line to begin at a point
known and designated as Station O, sit-
uate in the Southwest quarter (SW 1/4)
of the Northwest quarter (NW 1/4) of
Section 23, Township 134 North, Range
28 West; thence extending from said
point of beginning in a southerly di-
rection, over and across the Mississippi
River, for a distance of about 5.82 miles, and
intersecting with the main track of the
Northern Pacific Railway at a point sit-
uate in said Northern Pacific main track,
between Third and Fourth Streets in
West Brainerd.

It is Therefore Ordered, that a hear-
ing on said petition be heard at the
office of the Minnesota & International
Railway Company, in the City of Brainerd,
Minnesota, on the 14th day of May,
1913, at two o'clock in the afternoon,
where objections, if any, will be heard
to the granting of said application;
that notice of such hearing be given by
a publication of this order in the Brainerd
Daily Dispatch, a newspaper printed,
published and circulated in the City of
Brainerd, Minnesota, on the 10th, 12th
and 14th day of May, 1913.

M. & I. TO BUILD CUT OFF TO CITY

Planned to Run From Leaks to Connection with Main Line Near Northern Pacific Hospital

A DISTANCE OF 5.8 MILES

Work to Commence Within a Few Weeks and Improvement Completed by Fall

In an interview W. H. Gemmell, general manager of the Minnesota & International railway, stated today that his company planned the construction of a cut off from Leaks running in a southwesterly direction to a connection with the main line of the Northern Pacific just west of the Northern Pacific hospital, a distance of 5.8 miles.

The building of this line will improve the Minnesota & International railway company's entrance into Brainerd, do away with the necessity of turning passenger trains on the wye, and afford a practically level grade between Brainerd and Leaks as compared with a high grade with many and heavy curves over the old route through the Northern Pacific shop yard and across the river at East Brainerd.

It is expected that work on this cut off will be started within a few weeks and that same will be completed and ready for use by fall.

C. W. Mowery, of St. Paul, is the engineer in charge and has located in Brainerd. It is expected that grading contracts will be let next week.

The work of grading and construction means the expenditure of much money in Brainerd, for the various crews will be working in Brainerd trade territory and will spend their money in Brainerd.

Mr. Gemmell also stated he is calling for bids for a brick four stall addition to the roundhouse at North Bemidji and for a brick machine shop. The increased facilities are required in order to take care of the company's growth of business.

4 TO 7 SCORE DID IT

M. & I. Clerks Nine Defeated, But it Took Over Half the City Team to do it

When William F. Marx, general manager, publicity agent and traffic chief of the M. & I. clerks baseball nine issued a challenge to the world for a game, he had high hopes of carrying away the opener for this season. But the M. & I.'s were beaten by a score of 4 to 7 by the Y. M. C. A. nine. However, there is some glory left when one considers that it took a nine of over half the city team players to worst the clerks in the five inning game played at the Koering grounds last evening.

Fay pitched for the railroad team and struck out 8 men. He's the valuation clerk at the general office, and he certainly struck the right valuation of their abilities as batters when he struck out the aforesaid 2-3 of a dozen pill smashers. Those were on the receiving end and he never missed one.

Here's the way the score looked: Y. M. C. A. 0 2 2 3 0—7 M. & I. 0 2 2 0 0—4

The rest of the line up of the M. & I. bunch was Henry Clark, assistant engineer, first base; George Forsythe, chief yard clerk, second base; Charles Mahlum, assistant chief clerk auditor's office, third base; H. O. Grisch, dispatcher, shortstop; William Twohey, clerk auditor's office right field; Henry Olson, clerk, left field; David Sutherland, clerk, center field.

The Y. M. C. A. battery was Zierke and Long.

General Order No. 19—Effective at once. All members of M. & I. team requested to head in at Koering grounds for general practice this afternoon.

General Order No. 20—Game wanted by M. & I. with high school nine next Saturday.

General Order No. 21—Y. M. C. A. team take notice. After calling M. & I. nine on carpet, members said they could lick the association team if given another chance. A return game is wanted.

CARLTON GRADING CONTRACT LET

Special to The Dispatch:

Deerwood, Minn., May 10—Dale & Bumgardner, of St. Paul, and Robert McMenemy, well known railway contractors, who have done much grading and construction work for the Northern Pacific and Soo Line on the Cuyuna range, are reported to have secured the contract for removing 500,000 yards at the Carlton yards of the Northern Pacific railway.

DEATH OF PIONEER

Long a Resident of Brainerd, Mrs. Anton Drogseth Passed Away Early This Morning

Mrs. Lena Drogseth, aged 59, wife of Anton Drogseth, 812 South Sixth street, passed away at her home early this morning, death being due to paralysis. She suffered a stroke about six weeks ago and apparently recovered. A few days ago she had another stroke and the end came quickly. Her husband and children were at her bedside when she went to her reward.

Mrs. Drogseth was born in Norway where she married to Claus Hanon and to them two children were born, Mrs. John Carlson of Brainerd and John Hanson of Saskatoon, Canada. Upon the death of her husband she came to this country and lived for a time at Minneapolis where later she was married to Anton Drogseth. Of this union there were three children, Adolph Drogseth, Mrs. William Lyndas and Arthur P. Drogseth.

She was a member of the Ladies of the Maccabees of this city and held membership in the Norwegian-Danish Lutheran church. Always active in church work, she was a power for good in the ladies aid and in other activities of a religious order. Having lived twenty years in Brainerd, her kindly nature made many friends, who mourn her loss and offer their consolation to the bereaved family.

The funeral will be held Monday afternoon at 3 P. M. from the Norwegian-Danish Lutheran church. Rev. C. Hougstad officiating.

MAYOR SIGNS CONTRACT

Mayor Henning Affixes Signature to Lighting Contract made with Stoner Company

Friday afternoon Mayor R. A. Henning affixed his signature to the lighting contract entered into between the city of Brainerd and the Cuyuna Range Power company and the contract as published in a recent issue of the Dispatch became effective at six o'clock last evening, when the power company formally took possession of the Toltz Engineering gas producer plant.

The proper deeds of conveyance have been placed on record and everything has been arranged in proper legal form.

EXHIBIT RANGE PICTURES

Duluth Herald Views of Cuyuna Range Placed on Exhibit in St. Louis Hotel, Duluth

The Duluth Herald will on May 26 print an edition of 100,000 or more copies which will pay particular attention to northern Minnesota in an agricultural, mining and industrial way. The Cuyuna range will receive its due share of publicity and the pictures will be views taken this week by one of the staff photographers, Mr. Mackenzie, under the direction of George Reid.

Mr. Reid, who is in charge of the special edition, said the keynote of the whole number will be, "No hot air. The truth about Duluth and northern Minnesota is good enough. Facts, just facts will be given." It will be the greatest pictorial representation that this section of the Northwest has received in years.

In the wealth of illustrations there will be 50 mining pictures, about half of which will be from the Cuyuna iron range. There will be six pages of agricultural scenes. Numberless illustrations will show every phase of Duluth and 12 pictures will portray the steel plant. Panoramic pictures taken by Gallagher will be shown.

In their tour of the Cuyuna range Mr. Reid and Mr. Mackenzie took underground mine, pit mine, the hydraulic mine and townscape pictures, showing every phase of development in the mining industry on the youngest range in Minnesota. These will be placed on display at the St. Louis hotel in Duluth for a period of about eight days.

The Duluth Herald has always been a good paper for Brainerd and the range, giving both much publicity. When the tonnage tax threatened the peace and security of this section, the Herald took up the cudgels against this kind of proposed legislation and did its part to have the iniquitous measure killed. Orders for copies of this great industrial number should be sent in now in order to secure supply.

MOTHER'S DAY IN BRAINERD

Special Services Sunday in Many Churches to Commemorate the Day Devoted to Mother

FLORAL TRIBUTES FOR HER

White Flowers for Mother's Memory, Bright Flowers for Mothers Living

Sunday, May 11, is Mother's Day, set aside officially throughout the United States to honor the best mother who ever lived—your own. Remembrances should be made with floral tributes in the home, and no one will be seen without a flower on Mother's Day tomorrow.

There are to be white flowers for mother's memory and bright flowers for the mother living.

Anna Jarvis, the founder of Mother's Day, is pleased with the spread of the observance. The idea has taken firm hold in Brainerd and tomorrow will see special services in many churches in commemoration of the day.

At the First Congregational church special services will be held morning and evening. In the morning Rev. G. P. Sheridan will preach on "What We Owe to Motherhood." In the evening his sermon will be, "The Influence of Home."

At the First Baptist church Mother's Day will be recognized at the Sunday services. The subject of the evening sermon will be "Our Duty to Mother." All who can are requested to wear a white carnation in honor of mother.

And as a parting suggestion to the girls of the household. Let mother be free from the worry and care of the Sunday dinner and other work. Let mother have a real holiday. Don't worship her for a moment and then have all the cares of the household again fall on her shoulders. Let mother rest, while father and the children do the work for this one day at least and do it as uncomplainingly as mother does the other 364 days of the year. Then you can appreciate the sacrificing spirit of mother, who says little, but whose treasure of love and devotion is so un-failing that she never sees the shortcomings of others. Make it a real holiday for her by not forgetting the practical side of life.

WATERWORKS AND SEWERS

Grades for Cement Walks—Big Store in West Park Addition—El-lingston Store Improved

Iron-ton, Minn., May 9—The first circus on the Cuyuna iron range will exhibit at Iron-ton Monday, May 12. It's a railway circus and money is being hoarded for circus day.

Waterworks and sewers are being considered by the council and engineers have been ordered to make preliminary plans. The council has also ordered grades established for cement walks.

Rev. Father Joseph L. Quillien has returned from a lengthy visit in Paris, France.

The clothing store of Joe and John Stanich is nearing completion. Olaf Nelson and Algot Berg, of Superior, have bought lots 13 and 14, block 4, West Park addition, and will immediately erect a two story and basement building to be used for their general store.

James Gregwicz and Joe Minerich have each purchased lots in West Park addition and will build within a few days.

Emil Krech, an Austrian interpreter of the Balkan languages, is building a home in Smith's addition.

J. E. Blum, engineer at the Armour No. 1 mine, recently had as his guests his parents from Little Falls. Charles Peterson, of Brainerd, is bricking up the boilers at the Cuyuna-Duluth mine.

Ellingson Brothers general store has been improved by the addition of a \$750 refrigerator. The store is doing an ever increasing business.

Dr. McCoy is reported to have let a contract to build a \$3,000 residence on lots 7, 8, 9 and 10, block 7.

Eric Olson has placed in position the fixtures of the First National bank. Cashier Haynes, of Sherwood, N. D., formerly county treasurer for 12 years at Decorah, Iowa, has been in Iron-ton attending to the inauguration of the banking business.

Ed. Syverson, the hustling real estate agent, reports business booming. He is a staunch friend of the Brainerd Dispatch and believes in its value as an advertising medium.

A Brief History of Corsets

We give below, a brief history of the evolution of the corset. This shows the various periods in the evolution and the splendid perfected garments we have today.

The ancient, classical period when women first supported their busts with a bandage.

The middle ages in which a modification of the Roman fascia was worn.

The Renaissance, in which the fascia begins to enlarge into some resemblance to the modern corset and tight lacing begins.

The period from the middle of the 16th to the end of the 18th century, in which whalebone began to be used.

The period including the whole of the 19th century in which tight lacing reached the extreme. Whalebone growing scarce and costly, began to be replaced by various other materials, many of them superior to whalebone.

The Gossard period, embodying the most important revolution of history in the art of corsetry, viz., front lacing, besides other important changes based on a scientific study of the problem. The Gossard system of corsetry produces most stylish figures with the maximum of comfort. The Gossard is also recognized as the most healthful corset made. They are demonstrated only at

M. & I. TO BUILD CUT OFF TO CITY

Planned to Run From Leaks to Connection with Main Line Near Northern Pacific Hospital

A DISTANCE OF 5.8 MILES

Work to Commence Within a Few Weeks and Improvement Completed by Fall

In an interview W. H. Gemmell, general manager of the Minnesota & International railway, stated today that his company planned the construction of a cut off from Leaks running in a southwesterly direction to a connection with the main line of the Northern Pacific just west of the Northern Pacific hospital, a distance of 5.8 miles.

The building of this line will improve the Minnesota & International railway company's entrance into Brainerd, do away with the necessity of turning passenger trains on the wye, and afford a practically level grade between Brainerd and Leaks as compared with a high grade with many and heavy curves over the old route through the Northern Pacific shop yard and across the river at East Brainerd.

It is expected that work on this cut off will be started within a few weeks and that same will be completed and ready for use by fall.

C. W. Mowery, of St. Paul, is the engineer in charge and has located in Brainerd. It is expected that grading contracts will be let next week.

The work of grading and construction means the expenditure of much money in Brainerd, for the various crews will be working in Brainerd trade territory and will spend their money in Brainerd.

Mr. Gemmell also stated he is calling for bids for a brick four stall addition to the roundhouse at North Bemidji and for a brick machine shop. The increased facilities are required in order to take care of the company's growth of business.

The middle ages in which a modification of the Roman fascia was worn.

The Renaissance, in which the fascia begins to enlarge into some resemblance to the modern corset and tight lacing begins.

The period from the middle of the 16th to the end of the 18th century, in which whalebone began to be used.

The period including the whole of the 19th century in which tight lacing reached the extreme. Whalebone growing scarce and costly, began to be replaced by various other materials, many of them superior to whalebone.

The Gossard period, embodying the most important revolution of history in the art of corsetry, viz., front lacing, besides other important changes based on a scientific study of the problem. The Gossard system of corsetry produces most stylish figures with the maximum of comfort. The Gossard is also recognized as the most beautiful corset made. They are demonstrated only at

"The Woman Who Knew"

By Reliance. This film is powerful in its psychological effect.

"The Mute Witness"

By American. A trap for catching and photographing wild animals is employed in this to capture the villain and pictures his assault upon the girl's father, the scheme works with good effect.

"When Ghost Meets Ghost"

By Tanhauser. A very interesting and funny picture, where the ghost goes in and out of a bottle, like the genie in the Arabian Night's tales.

Bridgeport Standard Prepared Paint
is
Economical
The Paint that Lasts
THIS illustration will give a fair idea of the difference there is in prepared paints. That kind whose price is low per gallon will "cover" a given area indifferently well, or "cover" only part of the work you have to do.
On the other hand, Bridgeport Standard Prepared Paint, because of its covering quality; because of its inherent goodness; because it is made right, will "cover" the entire surface to be painted and do it to your entire satisfaction.
Its price per gallon may be a trifle more, but when you measure it against the job, and against the time it will last when compared with inferior kinds, it is many dollars cheaper in the end.
It is merely a question of whether you want to buy paint whose only recommendation is that it is cheap, or whether you want to buy Bridgeport Standard Prepared Paint "made up to a standard, not down to a price."

Coughs and Consumption
Coughs and colds, when neglected always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by H. P. Dunn.—Adv. tta

LOERCH ITEMS

There was a party given at the Aspholm place last Thursday, given in honor of Mrs. Miller.
